

Totem Modular Light Box

The ideal modular illuminated display for exhibitions, showrooms, conferences, and retail displays.

The Totem Light Box is a striking, easy to transport display solution that is quick and easy to put together on site.

The Totem is available in a variety of standard sized freestanding and wall mountable versions, coming either as a single section or as easily manageable modules that simply slot into each other. No complicated wiring or electrical installations are necessary; the system is ready for use in seconds.

Replacement fluorescent tubes are easily changed requiring the removal of just a couple of small screws to access the aluminium casing.
